

NEW!

Protect your valuable investment and maintain its' pristine condition by keeping it dust and scratch free.

Order one today!

When your rig is shut down, the RigWrapper cover eliminates dust accumulation and prevents scratches. Designed exclusively for YAESU MP series rigs, its' ice-blue translucent face provides a seductive view of that rig you have always dreamed of.

The RigWrapper comes in black with a translucent ice-blue face. Give your cover a unique and personalized appeal by adding your call letters and the ARRL decal.

- Cover for Rig \$59.95
- Call letters \$10.00
- ARRL decal \$ 3.00

The soft dense EVA foam cover is rigid enough to allow "threading" the cover on "face first" in the event that the shelf above, holding your amp, tuner or printer, prevents you from dropping it over the top; yet, the foam is pliable enough to be folded neatly for storage.
